SUMMARY

Frontend developer with 1.5 years building React + TypeScript applications. Ships data-dense internal UIs (dashboards, tables, multi-step import and approval flows) with clean components, vi/en i18n and automated tests. Integrates SPA authentication via OpenID Connect and works comfortably with .NET APIs.

EDUCATION

Bachelor of Artificial Intelligence
Van Lang University
2023 - 2026

LANGUAGES

Vietnamese: Native

English: Elementary

PROFESSIONAL EXPERIENCE

Web & Database Developer — HOAN CAU GROUP

June 2025 – November 2026 · 1 yr 5 mos · Ho Chi Minh City, Vietnam

- Built React + TypeScript UIs for reporting and project-data platforms: dashboards, filterable tables, import wizards and approval flows.
- Built a Svelte portal for a data lakehouse; refactored large screens into small reusable components with no behaviour change.
- Integrated SPA authentication with OpenID Connect (PKCE), silent renewal and role-based UI.
- Wrote Vitest and Playwright tests and ran them as CI gates; added vi/en internationalisation.

SELECTED PROJECTS

Enterprise reporting UI

React · TypeScript · Vite

- Dashboards, import wizards and approval screens for accounting teams.

Data portal

Svelte · TypeScript · Playwright

- Role-aware portal with charts, exports and end-to-end tests.

Project data UI

React · TypeScript · Vite

- Coordination workspace, member invitations and master-data screens.

TECHNICAL SKILLS

Frontend:	React, TypeScript, JavaScript, Svelte, Vite, HTML5, CSS3, responsive design
UI patterns:	Dashboards & data tables, multi-step forms, i18n (vi/en), theming
Auth:	OIDC SPA integration (PKCE), token renewal, session-expiry UX
Testing:	Vitest, Playwright (end-to-end), component tests
Backend & Tools:	REST APIs, .NET / ABP integration, Git, Docker
